

Start a live video class right inside the Collective — no Zoom or Google app needed. Students join from their phone or computer, and every call is saved: who came, when, for how long, attendance, and recordings.

0 One time only: turn on call tracking

1. Go to www.thep31collective.org/systems and sign in.
2. Tap **Academy** in the menu.
3. Under **Live classes**, tap **Turn on call tracking**.
4. You'll see a green message: *"Call tracking is on."* That's it — you never need to do this again.

1 Go live now

1. Go to www.thep31collective.org/portal and sign in.
2. Choose **Business Mentorship** or **Faith-Based Mentorship** (your mentor console).
3. At the top of the page, tap **Go live now**.
4. Fill in the box:
 - **What's it called?** — e.g. *"Monday Strategy Session."*
 - **Who's invited** — *Everyone*, or *Choose students* and tick names.
 - **About how long** — 30 to 120 minutes.
 - **Allow recording** — tick it if you want to record (see costs on page 3).
5. Tap **Go live**. The room opens right inside the site.
6. When the browser asks, tap **Allow** for your camera and microphone.
7. On the check-in screen, make sure you can see and hear yourself, then tap **Join**.

Your students are told right away. Everyone you invited gets a **"Live now"** notification. One tap takes them straight into the call.

2 Call one student

1. In your console, tap **Students** and choose the student.
2. Tap **Call now**, then **Go live**. Only that student is invited.

3 In the call

Use the bar at the bottom of the video:

- **Microphone / camera** – turn yours on or off.
- **Share screen** – show slides, a worksheet or a website.
- **Chat** – type links and notes for everyone.
- **Record** – appears for you when *Allow recording* was ticked.
- **Leave** – you leave; the class keeps going for others.

To finish the class for everyone, tap **End for everyone** at the top of the page (above the video).

4 Schedule a live class for later

1. In your console, tap **Sessions**, then **Schedule a session**.
2. Add a title, the day and time, and the length.
3. Under **Where the class happens**, keep **Live room in the classroom** selected.
4. Tap **Schedule**. Students are notified and see it on their Sessions page.
5. At class time, open **Sessions** and tap **Start class**.

Rooms open **30 minutes before** the start time, so you and your students can arrive early.

5 After the call: your report

1. Tap **Sessions**, find the class, and tap **Report**.
2. You'll see each person, when they joined and left, how many minutes they stayed, and their attendance.
3. If you recorded, tap **Show recordings**. Students can rewatch from their Sessions page too.

Every call is also added to each person's timeline in **Systems** → **CRM**.

6 How students join

From the notification

Tap the **bell** → **"Live now: ..."** → the call opens.

From the classroom

Sessions → **Join class now**. Joining marks them *present* (or *late* after 10 minutes).

7 Good to know

Best browsers	Chrome, Safari or Edge, kept up to date. Phones and tablets work too.
Camera or mic blocked?	Tap the lock icon by the web address → allow Camera and Microphone → reload the page.
“Live video isn’t connected yet”	Ask your P31 admin — the Daily key needs to be added in Supabase.
Free minutes	10,000 participant-minutes every month (e.g. 33 hours of a 5-person class). After that, \$0.004 per person per minute — calls are never cut off.
Recording	About \$0.81 per recorded hour (needs a card on the Daily account).
Looking your best	Light in front of you, camera at eye level, headphones to avoid echo.

*“Give her of the fruit of her hands; and let her own works praise her in the gates.” —
Proverbs 31:31*
